## CAREER CONTOUR

I am unwavering, meticulous, and highly competent in the **IT/Software Industry** I have a consistent record of transporting the best results-driven work with a proven ability to implement my work in an organized manner for **16+ years** of my successful career.

My expertise:- **IT/Software Industry – SAP Implementation and Support, Quality Assurance, HR ABAP Development, Project Management, ECC and S/4 HANA, Financial and Payroll Modules, Business Process Integration, Technical Specifications, Cross-Functional Collaboration, UAT Issue Resolution, Resource Utilization, SDLC Planning and Execution, Technical Documentation, Sourcing and Time Management.** I have in-depth knowledge of all ethics of management. I possess effective communication skills and am a team player with strong Organizational, Logical, and Problem-Solving Abilities.

I have great exposure to working with large-scale organizations like **Tata Consultancy Services Limited**. I am well-versed skills in analysis, problem-solving, and coordination, which make me so successful and dedicated. Strong influencing and negotiation skills coupled with a proven ability to think in and out of the box, generating new solutions.

I have commenced my profession as an **Executive** and risen myself an **Associate Consultant** reputed company. I would like to see myself growing with the passing years of hard work and dedication. I have been awarded many accolades for my result-oriented hard work.

Armed with a multitude of competencies and work experiences, I am confident to carry forward any organization's vision & objectives with sufficient ease and dedication to my job responsibility.

## EXPERIENCE

**May'2007 – Till Date | Tata Consultancy Services Limited | As Associate Consultant**

### **Responsibility:-**

- Led the implementation and support of Financial (FI) and Payroll modules within ECC and S/4 HANA for key clients including Boston Scientific, NS Capacity, and Peabody Energy and Investments.
- Functioned as a Team Lead, overseeing tasks from a supplier perspective, and actively participated in direct interactions and meetings with Business Process owners to comprehend existing processes and customer-specific requirements.
- Troubleshoot production issues and provide support in alignment with Functional consultant consultations.
- Collaborated closely with cross-functional teams during development and testing phases, ensuring adherence to schedules and quality benchmarks.

- Took ownership of creating Technical Specifications, reviewing Technical Specifications, Unit Test Plans, and Code, ensuring timely delivery for all assigned tasks to the Development and Training teams.
- Provided production support and developed customized solutions, conducting unit tests and handing over deliverables to the functional consultant.
- Worked in tandem with Functional Consultants to translate functional documents into technical approach summaries for customer requirements.
- Analyzed functional requirements and prepared program specifications, including ABAP coding, testing, and documentation of ABAP/4 programs.
- Spearheaded programs for multiple clients, including TATA Chemicals LTD. (India and Kenya), Ambuja Cements, McGraw Hill, Dow Chemical, SAB Miller, Hyundai, Mother Dairy, Shipping Corporation of India, NS Capacity, Peabody Energy and Investments, and Boston Scientific.

#### **Additional Responsibilities:**

- Ensured expeditious resolution of User Acceptance Testing (UAT) issues and maintained balanced resource utilization during the UAT phase.
- Assessed production support resource requirements based on project needs.
- Ensured resolution of generic customer issues during UAT for seamless product delivery.
- Drove and monitored quality-related aspects of the Business Unit, focusing on continuous improvement.

#### **SDLC Planning & Execution:**

- Analyzed and comprehended technical and functional specifications, leading the design and development of reusable key components.
- Prepared technical specifications and test script plans for application testing, with a keen focus on debugging and troubleshooting.
- Maintained technical documentation by IQMS guidelines.
